

## Hoja Worksheet 3.4: Caso estudiado para el Study for Liverpool Business Incubation Centre

### Resumen Overview of Business

Sandra dirige un centro de incubación de empresas en Liverpool que ofrece servicios de oficina virtual (dirección de correo y direcciones de negocios). El centro de incubación se estuvo negociando durante 3 años y ha experimentado un crecimiento constante en los últimos 3 años, de los cuales llenó un edificio a su 90% de ocupación con oficinas. Todas las habitaciones libres y áreas de descanso se han convertido en oficinas y ese lado de la empresa está rápidamente alcanzando su capacidad. Está lleno muy a menudo, y sólo disminuye al 90% en el intervalo de tiempo en el que un arrendatario se muda y se sustituye por otro. Sandra ha identificado los servicios de oficina virtual como la clave para hacer avanzar su negocio. Al ser virtuales, no ocupan ningún espacio. El equipo puede manejar cualquier puesto adicional por lo tanto, los recursos están ahí para que el negocio pueda crecer. Las oficinas virtuales son rentables y requieren poco esfuerzo. Sandra cobra £ 20 por mes y tiene alrededor de 40 clientes. La respuesta telefónica no es un servicio ofrecido en la actualidad, por lo que el único elemento que consume tiempo es el envío de correos electrónicos a los clientes para informarles de que su mensaje ha llegado.

Los clientes se basan en personas que visitaron el edificio. Podría tratarse de personas que han asistido a sesiones de asesoramiento de negocios, personas que fueron inquilinos antes pero ahora quieren trabajar desde casa o fuera de la calle. Hasta la fecha Sandra no ha recibido clientes a través de la web.

Sandra runs a business incubation centre in Liverpool that offers virtual office services (mail handling and business addresses). The incubation centre has been trading for 3 years and has experienced steady growth over the past 3 years, of which she took on an empty building and has a 90% occupancy rate on filling the offices. All spare rooms and break out areas have been converted into rentable office space and that side of the business is very rapidly hitting its capacity. It's very often full, and only dips to 90% as one tenant moves out and the time gap for another to be found and in place. Sandra has identified the virtual office services as the key to moving the business forward. By the very nature they are virtual and do not take up any space. The team in place can handle any additional post thus the resources are there for the business to grow. The Virtual Offices are extremely profitable and require little effort. Sandra charges £20 per month and has around 40 clients. Telephone answering is not a service offered at present, so the only time consuming element, is emailing clients to inform them that their post has arrived.

The 40 clients have been found organically by people who visited the building. This could of been by people who have attended business advice sessions, people who were tenants previously but now want to work from home or general walk ins off the street. To date Sandra hasn't had a client via her website.

## Identificación del problema y diagnóstico Problem Identification & Diagnostic

Sandra sabía que conseguía dirigir a poca gente desde los motores de búsqueda de internet hasta su página web. Sandra was concerned that she gets very little traffic from internet search engines to her webpage for the 'Virtual Office Services'. Su petición de ayuda se parece al caso de otro cliente. Her request for help is similar to other clients 'I want to SEO my site', (EL proceso por el cual conseguir altos posicionamientos en los buscadores) the process of getting a website higher in the search engine rankings) however, desde nuestra preservación, está claro que Sandra quiere más tráfico hacia su web, más consultas y clientes. from our brief conversation it is clear that Sandra wants more website traffic, more enquiries and ultimately more customers.

## Preguntas del Asesor Business Advisors Questions/ Soluciones & respuestas de Sandra Sandra's

### Answers

Le pregunté a Sandra por qué las oficinas virtuales no tenían su propia página. De la revisión ambos estuvimos de acuerdo en que Sandra no tiene una página dedicada para sus oficinas virtuales, la información relativa a oficinas virtuales se perdió en su oferta general. También señalé que no había un botón dedicado para que el visitante pudiera encontrar más información sobre las oficinas virtuales. Se acordó que Sandra crearía uno.

Exploramos por qué sus páginas eran demasiado locuaces, sin enfocarse en un producto o servicio y le pregunté porqué no utilizaba imágenes. Esto era porque un diseñador gráfico había creado el sitio y el contenido fue creado por un redactor externo. Ella conseguirá imágenes del edificio.

I asked Sandra why Virtual Offices didn't have its own dedicated page. From the review we both agreed that Sandra doesn't have a dedicated page for virtual offices, the information relating to virtual offices was lost in her overall incubation offering. I also pointed out there was not a dedicated button that a site visitor could press to find more information on Virtual Offices. It was agreed Sandra would create one.

We explored why her pages were too wordy, without a focus on a product or service and I asked Sandra why she doesn't use images. Sandra felt this was because a graphic designer created the site and the content was created by an external copywriter. She would get some pictures of the building uploaded.

I asked Sandra if she considered outside help either from another web designer or copywriter. Sandra felt that wasn't an option as she wants to take ownership and educate herself.

Hay campos genéricos pero no hay palabras clave (palabras que la gente introduce en Google cuando están buscando un servicio o producto) que destaque. Le dije a Sandra que utilizará During the meeting, what was clear straight away is that the website was too generic. There is a generic domain and no real keywords (words that people input into Google when searching for a product or service) on the page that they are known for or stand out for. So I asked Sandra to use <https://adwords.google.com/KeywordPlanner>, para que investigara sobre las búsquedas más populares cuando alguien busca desde Google por una oficina virtual. - Una página y botón dedicada a Dedicated page & button on the home page for 'Virtual Offices' – sasí la gente facilmente sabrá que botón pinchara people could easily see which button to press
- El nombre de la página es como su nombre de búsqueda The page is named as the search term www.hercompanyname.com/VirtualOffice, esta idea vino como resultado de Sandra tomando el curso de Google this came via the advice off Sandra's Google course. Tener una página web definida ayuda con el ranking de los motores de búsqueda. Having a defined web address helps with search engine ranking.
- El contenido de la página estará dedicado a los servicios de las oficinas virtuales, será útil e informativo para la persona que visite la página. También explicará que es una oficina virtual, quien las usa, su localización en un mapa The content on the dedicated page would be all about the virtual office service; it would be informative and useful to the person visiting the site. It would explain amongst other information, what a Virtual Office is? Who else uses a Virtual Office and a map of where the Virtual Office would be located.
- De la investigación realizada por Sandra la palabra clave que eligió fue From the research completed online by Sandra. The keyword phrase 'Virtual Offices Liverpool' la cual es empleada en el contenido y en subtítulos would be used frequently within the content and as sub headings on the page, without being blatant. La página necesitaba ser coherente y el término de búsqueda no encajaba, t. The page needs to be coherent and the search term not shoe horned in.
- Cualquier tipo de información útil deberá ser colocada bajo el pliegue-esto se debe a que cuando alguien ecuentre la web, podra ver la pertinente información directamente y no tendrán que desplazarse hacia abajo para leer. Esto es muy útil ya que muchas veces los buscadores no se desplazan y simplemente vuelven al motor de búsqueda para buscar otra web.
- Any useful information on Sandra's page should be above the 'fold' – this means when someone finds the webpage, the pertinent information is there on their screen. They won't have to scroll down to find what they are looking for. I explained that users don't always scroll down the page, especially if they are coming from a Google search, many will just click back to Google and choose another website.
- Añadimos número de teléfono y un email con su nombre para que la gente sienta un contacto. Finally we looked at how to directly engage with the person visiting her site La idea es que puedan contactar con ella, a través de la web y del teléfono. We decided adding either a local phone number or an email with her name would help people to feel they had somebody to contact. The idea is that we wanted to get the user off the webpage and on to her phone.
- Sandra estuvo de acuerdo en añadir imágenes de colores del edificio para que vean como sería utilizar su edificio. Sandra agreed she would add some colourful images of the building to create an image of what it's like to use her building. **En la reunión final In our final meeting together –**

Sandra había completado su página Sandra had completed her 'Virtual Office', el curso de page she had completed the Google Academy y lo más importante el plan de acción que habíamos creado course and more importantly completed the action plan we created together.

Como comprobación final, revise cada página. Con el tiempo nacen páginas nuevas y las viejas son olvidadas o eliminadas, mientras que los links que dirigían al contenido aún estaban en su sitio. Había direcciones hacia enlaces rotos, cuando una página da error As a final check Sandra and I reviewed every page. Over time websites grow, and old pages can be forgotten or deleted, whilst on-page links to this content still remain in place. This leads to broken links which mean when Google Bot visits; an error page (typically a 404) las cuales te devuelven a Google will be returned. Unos cuantos de estos enlaces no te perjudican pero no ayudan a que Sandra Whilst a small number of these are unlikely to harm you, it doesn't help Sandra a) Consigue que su página se mantenga en altos rankings en los motores de búsqueda getting her site higher in the search engine rankings or b) Y lo mas importante, darle al usuario una buena experiencia, more importantly giving the end user a good experience. Sandra no quiere que sus clientes sufren errores de páginas. Sandra doesn't want her customers to see page errors.

Siguiendo un examen completo de la web, teniendo en mente todos los factores, ambos estábamos felices con la operación de la web. Estuvimos de acuerdo en revisarla con respecto a su apariencia en Google, preguntas y nuevos clientes en un mes. (leer abajo) Following a full review of the site, keeping all of the above factors in mind, we were both happy that the site is operating well. We agreed to review the results of the page, in terms of presence on Google, enquiries and new clients in a month – (see below)

Durante la reunión le pregunté a Sandra el porque se centraba en SEO (search engine optimisation), y cuales eran sus grandes objetivos para la empresa, que la limitaba a crecer y qué áreas mejoraría. También analizamos una gran variedad de oportunidades de crecimiento incluyendo, la expansión, expansión del edificio, aumentos de precios potenciales o añadir servicios adicionales. Sandra expuso que quería que el negocio creciera pero también que lo hicieran sus ingresos con los medios de los que disponía, por ejemplo, su edificio actual y mas oficinas virtuales. Sandra hizo una gran inversión y quiere ver beneficios de su inversión. Exploró formas tradicionales de hacer publicidad pero le quitan mas tiempo y son mas caras.

Sandra afirmó que mas que centrarse en SEO, su principal objetivo es mejorar su conocimiento de la web. Ha incrementado las visitas, ha conseguido mejorar las consultas y últimamente ha ganado negocios por medios online. and what are her wider objectives for the business? What limits her from growing? And what are key areas she wants to improve? We explored a range of other growth opportunities including, expansion, building an extension, potential price increases, and adding additional services.

Sandra explained that she wants to grow her business, but she wants to do this by increasing her income from the resources she has available e.g. her existing building and more specifically the virtual offices.

Comentamos sobre quien haría los cambios físicos de la página web. Sandra also explained she wanted any enquiries to come from online; she has spent a lot of money on her website and wanted to see a return on her investment. She had explored traditional forms of advertising but had found them time consuming and expensive.

Sandra confirmed that rather than focusing on SEO, improving her knowledge around websites is her primary aim. Increasing traffic, getting a better enquiry rate and ultimately winning business from online sources.

We discussed who would make the physical changes to her site?

Sandra estaba dispuesta a realizarlos ella misma pero que no estaba segura de si sus cambios mejorarían sus oportunidades de conseguir mas visitas. Sandra explained that she can make changes to her website but doesn't know which changes would directly improve her chances of people visiting her website.

Sandra ha buscado información y preguntado sobre programas y estafas que ocurren ahora mismo y si el uso de SEO merecería la pena. Le expliqué a Sandra que apoyara cada cambio que hicieramos para alcanzar los puestos más altos en los motores de búsqueda y permanecer en ellos a lo largo de 2016 y más allá, su página lo merecía. Sandra had looked online and asked whether some of the programmes and cheats that are available to help with SEO would be worthwhile using? I explained to Sandra that underpinning anything we do, any changes we make, in order to reach the top of the search engines and stay there in 2016 and beyond, her website must deserve to be there. It needs to be the best in class. It must offer the best user experience in that niche. Debe de ofrecer la mejor experiencia para los usuarios en ese campo.

Google y otros motores de búsqueda están constantemente cambiando. Se crean nuevos programas, actualizaciones, trucos y estafas que raramente funcionan todo el tiempo pero que hay que mejorar. Google and other search engines are constantly changing. New programmes are written, updates flood in and tips and cheats rarely work for an amount of time that makes them worthwhile to try.

#### Investigación Research

Realicé una investigación de la página completed a review of her 'Virtual Offices', y le dije a ella que hiciera lo mismo y que considerara lo que el cliente escribiría en un motor de búsqueda cuando busca encontrar su negocio, por ejemplo ¿Escribiría el consumidor la dirección de la oficina o dirección para mi comercio? page, asked her to do the same, and asked her to consider what a customer would type in to a search engine when looking to find her business e.g. would the customer type into Google 'office addresses' or 'address for my business'. Le pedí que hablara con los usuario de la oficina y a los arrendatarios virtuales para tener una idea de que buscarían ellos para encontrar su negocio. I asked her to speak to her office users and existing virtual tenants to get a feel of what they would type in to find her business.

En resumen

Sandra aumentó sus ingresos, el negocio está creciendo y su sitio web es más fácil de usar

Sandra puede mejorar su sitio y la página de la oficina virtual hasta alcanzar la página uno de Google

Sandra también ha introducido una campaña de Google Adwords para limpiar cualquier tráfico raro a través de su lista . (Google Adwords es el sistema desarrollado por Google para ayudar a comercializar productos o servicios en el motor de búsqueda de Google y sus sitios afiliados mediante el uso de un anuncio de texto que aparece cuando las personas buscan frases relacionadas con su oferta. To Summarise

*Sandra increased income, the business is growing and her website is more user friendly*

*Sandra can improve her site and the virtual office page is on page one of Google*

*Sandra has also introduced a Google Adwords campaign to mop up any traffic she misses through her organic listing. (Google Adwords is the system Google has developed to assist you in marketing your products or services in the Google Search Engine, and its affiliate sites, via the use of a placed text ad that appears when people search for phrases related to your offering, this appears as a "sponsored link".)*

*The site had a dedicated webpage for Virtual Offices (see below) which is written with the audience in mind. It has useful information, why use a Virtual Office, what does a Virtual Office look like, How much is a Virtual Office – the site is informative and therefore likely to feature higher in the rankings.*

Usa palabras existentes. Use existing words. Amazon.com ~~and~~ VitaminShoppe.com son buenos ejemplos de nombres ya existentes are good examples of domain names that were created using existing words. Usa un diccionario de sinónimos para encontrar palabras que cuesta encontrar. Use a thesaurus to find words that may not readily come to mind.

Crea ~~te~~ nuevas ~~ew~~ palabras ~~words~~. Muchas web famosos tienen como nombre palabras nuevas. Many famous websites are based on new words (o palabras ocultas que sean conocida por pocas personas) or words that were so obscure that few people knew them). Ejemplo ~~xamples~~, include Google.com, Bing.com or Quora.com.

Crea ~~palabras compuestaste~~, portmanteaus. A portmanteau una combinación de 2 is a combination of two (or more) palabras ~~words~~ o ~~morfemas~~ ~~phemes~~ y and sus ~~their~~ definiciones para crear una nueva palabra como ~~tions~~ to create one new word, like Groupon or Pinterest.

Escoge ~~Choose a~~ .com siempre que sea posible wherever possible – será encontrado en búsquedas internacionales it will be found in international searches

Cuando sea posible Wherever possible, escoge otras variaciones, por ejemplo buy other variations e.g. .net or .co.uk – 1call.com onecall.com

It's worth keeping the following in mind when you are choosing a new domain Si has escogido un nombre Nuevo, debes tener en cuenta:

Un estudio publicó que añadir las características general del producto al nombre ayudaba, por ejemplo A study published by Memorable Domains found that "ads featuring a generic domain name with an exact match to the product (ElectricBicycles.co.uk) performed significantly better than identical ads featuring an alternative generic (YourBikes.co.uk) or

A study titled "How generic domain names impact SEM campaigns" shows that ads with the display URL DivorceLawyer.com achieved a 298% higher CTR than ads with the display URL VladimirLaw.com.

Does the CTR advantage make buying a premium keyword domain a smart choice? la ventaja de usar CTR comprando un nombre con dominio es una opción acertada?

Ten en cuenta estos factores Consider these factors:

• ¿Cuál es el motor de búsqueda? Usa la herramienta de Google para encontrar la palabra clave, frase o nombre con dominio que mas se apropie a los motores de búsqueda

What is the search volume? Use Google's keyword tool to find the exact match search volume for the keyword phrase the domain matches.

• ¿Cuál es su coste? Muchas nombres con dominio están cogidos y son difíciles de conseguir. What is the cost? Most premium keyword domains are already registered and are difficult to obtain

La idea de cambiar el nombre fue descartada, en mi opinion es lo mejor. The idea of changing the domain was rejected, and in my opinion quite rightly so.
